

Wow, these weeks are flying by! I feel like we can almost smell summer outside. Let's finish strong MSMS artists!! On the google form last week, I had several requests to give you the freedom to choose your art project. So, by popular demand, this is the week to do that. You could create another 3D sculpture, a digital image, a drawing, a painting.....the sky is the limit. If you do not usually create art on your own and you do not have something in mind that you would like to do, please choose from the list I have put together below. I can not wait to see what you come up with!!!! Who knows, maybe I will create a new assignment based on what you have done. Have fun and stay safe.

Must Do:

1. Create a piece of art (your choice).
2. Fill out the google form.

Can Do:

1. Email me a picture of your artwork
