

Let's get creative and make some cards for our loved ones!! I know first hand that I feel really special when my kids, nieces and nephews draw pictures for me. So, I have linked a video of an adorable bunny drawing that might be perfect for sending to friends and relatives this week. If you draw it on half of the paper, you can write a special message on the other half. There is an example of the finished project in the gallery. It is done by MSMS 6th grade artist, Alexis Brady. Please keep sending me that artwork!!!
