

I am so impressed with all the one-point perspective artwork! Great job sailors!! Here is the work for this week.

**Must-Do:**

1. Watch the video of me making a color wheel. (9 min.)
2. Fill out the google form.

**Can Do:**

1. Create your own color wheel.
2. Share a photo of your work with me.

In the video, I cover the primary colors (Red, Yellow, Blue) and how to mix secondary colors (Green, Purple, Orange). These are questions on the google form, so please watch the video. I am going to use the google form below to track participation. If you do not fill it out, you will not be given participation credit for the week.

If you choose to make a color wheel of your own, it does not have to be painted like mine. You can use crayons, color pencils, or even fun found objects. There is a quick google slideshow attached for inspiration. Have fun!!!
